

Open Source, How?

Muhammad Irwan Andriawan

Open Source?

The background is a solid dark blue. It is decorated with various geometric shapes: a large light blue circle on the left, a large purple circle on the top right, and a large blue circle on the bottom right. Several smaller orange circles are scattered throughout. There are also light blue and teal elongated shapes, some with rounded ends, and a small circle with diagonal hatching near the bottom center.

How to be involve in Open Source?

based on my experience

- Gabung ke komunitas
- Belajar Cara berkolaborasi
- Kenali tempat dimana proyek-proyek open source dipublikasikan (github, gitlab, soureforge)

But, Technically How?

- Git everywhere
- Github everywhere
- Communication everywhere

Let's coding!
